- FI, MM, SD, PPQM, PI Functional Exposure
- SAP GUI, SE11, SE37, SE38, SE80

CERTIFICATIONS

- SAP Certified Associate – Back End Developer (ABAP Cloud)
- SQL Concepts & Queries (Skillsoft)
- Microsoft Certified: Azure Fundamentals.

PROFESSIONAL EXPERIENCE

IBM India Pvt. Ltd. – SAP ABAP Developer

February 2024 – Present

- Developed and enhanced custom SAP ABAP solutions including ALV Reports, Classical Reports, Module Pool Applications, Smart Forms, and Adobe Forms.
- Built and supported interfaces using IDoc, OData Services, RFC, and Proxy technologies for system integration requirements.
- Performed advanced debugging and root-cause analysis of standard and custom SAP objects, resolving production issues and improving system reliability.
- Worked closely with functional consultants and business users across FI, MM, SD, PPQM, and PI modules to deliver business-critical enhancements.
- Implemented User Exits and Customer Exits to support evolving business requirements while maintaining SAP standards.
- Conducted code reviews, testing, and optimization to ensure high-quality SAP developments.

KEY ACHIEVEMENT - SAP TOOL

Designed and developed a custom SAP ABAP automation utility using RFC technology to validate Transaction Codes, Function Modules, Reports, Tables, and Data Elements across multiple SAP systems.

Automated cross-system object verification across 10+ SAP landscapes, eliminating manual server-by-server validation.

Implemented number-range retrieval functionality to identify the latest available object number for new transaction creation based on organizational standards.

Improved developer productivity and reduced validation effort through centralized object governance.

EDUCATION

- **Bachelor of Engineering** – Computer Science & Engineering
Mangalore Institute of Technology & Engineering | 2019–2023 | CGPA: **8.19**
- **Senior Secondary (12th)**
SWAMIJIS HSS, Edneer, Kasaragod | 2017–2019 | Percentage: **92.4%**
- **Secondary School (SSLC)**
BEMHSS, Kasaragod | 2016–2017 | Percentage: **95%**

STRENGTHS

- Quick learner and responsible team player
- Strong debugging and problem-solving skills
- Adaptive to new tools, technologies, and working environments

ACHIEVEMENTS

- IBM Appreciation for Excellence Certification for outstanding performance.
- Multiple Star performer of the Month Award.
